***Claim Rejections - 35 USC § 103***

1. Claims 9,10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watkins et al (3,592,184).

Although not explicitly stated in the patent to Watkins, it is considered to have been obvious to make the external diameter of the catheter between 4mm and 7mm in order to facilitate blood flow without interference with other structures of the heart. One of ordinary skill in the art would know what proper dimension of the catheter should be to provide the best treatment of the patient.

***Allowable Subject Matter***

2. Claims 5-8,11-20,23-25 are allowed.
3. Since a new rejection has been made, this action is not made final.
